# EXPANDED CORK GRANULES RUSTIC DECORATIVE FLOOR

AMORIM

AMORIM ISOLAMENTOS, S.A.

## SOLUTION DESCRIPTION

Continuous floor coating incorporating Expanded Cork Granules as lightweight filler featuring rustic finishing system.

## TECHNICAL FEATURES

Density: 1350 Kg/m<sup>3</sup>

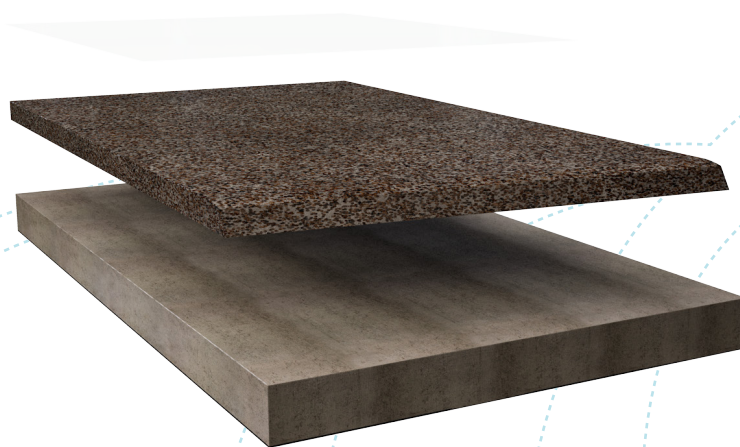

Thermal conductivity:  $\lambda = 0,60 \text{ W/m}^\circ\text{C}$

Good acoustics properties

Resistent

Rustic decorative

Economic and easy to apply

## ENVIRONMENTAL FEATURES

- 100% RECYCLING OF PRE AND POST-CONSUMER WASTE  
(NO VIRGIN MATERIALS)

## PRODUCT DIMENSIONS

Granules size: 2-5 mm

## PACKAGING

Raffia Bags

Big-Bag

## RECOMMENDATIONS FOR APPLICATION

Put in the mixer the materials in the order as follows:

- 2 parts water
- 2 parts of cement
- 6 parts expanded cork granules 2/5mm
- 3 parts sand, and mix well

Apply the mixture and smooth (minimum thickness 50mm). For thicknesses greater use wire mesh (10mm). Allow to dry 3 or 4 weeks

After drying of the floor proceed to polishing (Dry or Wet)

Application of veneer 2 or 3 days after polishing
